

AKHILESH

Data Scientist | Data Analyst | ML Engineer

[Email](#) | [Phone](#) | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | Mangaluru, Karnataka, India

PROFESSIONAL SUMMARY

Artificial Intelligence & Data Science engineering student with hands-on experience in Python, SQL, machine learning, data analysis, and Power BI. Built end-to-end projects involving EDA, predictive modeling, advanced SQL, dashboards, and recommendation systems. Seeking a Data Science / Machine Learning internship to apply analytical and ML skills to real-world problems.

TECHNICAL SKILLS

Languages	Python, SQL
Libraries	Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn
Machine Learning	Logistic Regression, Random Forest, Gradient Boosting, K-Means Clustering, Content-Based Filtering
ML Techniques	Feature Engineering, Hyperparameter Tuning (Grid Search), Cross-Validation, ROC-AUC Evaluation, Class Imbalance Handling, Threshold Tuning, EDA, Data Cleaning, Cosine Similarity
Databases & SQL	MySQL, Star Schema Design, Data Normalization, Multi-table JOINS, CTEs, Window Functions (RANK), CASE Aggregations
Deployment & APIs	Streamlit Cloud, TMDB API, Hugging Face
Visualization & BI	Power BI, DAX, Tableau, Plotly, Matplotlib, Seaborn
Tools & Version Control	Jupyter Notebook, Git, GitHub, VS Code, Google Colab

PORTFOLIO PROJECTS

IBM HR Attrition Analysis & ML Pipeline | MySQL + Power BI + Python ML

2026

- Normalized a 1,470-row flat CSV into 5 relational tables with foreign key constraints using star schema design
- Developed **7 SQL analyses** covering department, salary, tenure, overtime, and cohort analysis using multi-table JOINS, CTEs, RANK() window functions, and CASE WHEN aggregations.
- Built a 2-page interactive Power BI dashboard with 8 visuals, 4 KPI cards, color-coded severity bars, synced slicers, and navigation buttons
- Built an end-to-end **Logistic Regression classification pipeline**, achieving **ROC-AUC 0.80** and **Recall 0.81** after threshold tuning, SMOTE, Grid Search, and k-fold cross-validation.
- Deployed interactive Streamlit app (dark navy/neon-teal theme) with risk gauge chart, dynamic employee risk tags, and prediction interface
- Identified **Sales Representatives as a high-risk segment with 39.76% attrition**, alongside a \$2,046/month average pay difference versus retained employees.

Netflix Content Analysis — EDA | Python | Pandas | Matplotlib | Seaborn

2025

- Performed end-to-end exploratory data analysis on **8,800+ Netflix titles**, handling missing data, data-entry errors, and misrouted columns.
- Built **12 visualizations**, including a month-vs-year content heatmap and Movies vs TV Shows trend analysis.
- Identified **content growth patterns, genre distribution, and country-wise production trends**.

Movie Recommendation System — Python | TMDB API | Streamlit

2026

- Content-based recommendation engine using CountVectorizer + cosine similarity on TMDB 5000 dataset
- Streamlit app with TMDB API integration for real-time poster display and dynamic recommendations
- Deployed the application on Streamlit Cloud and hosted the project on Hugging Face.

CSV Analytics Dashboard — EDA | Python | Pandas | Matplotlib | Streamlit

2026

- Streamlit app: CSV upload, automatic EDA, statistical summaries, dynamic visualizations
- Intelligent fallback logic (pie chart for high-cardinality columns); full GitHub repo; deployed to Streamlit Community Cloud

VIRTUAL INTERSHIPS

Data Analytics Job Simulation | Tata Group (Forage)

- Completed GenAI-powered data analytics simulation — analyzed business data and created client-ready presentations
- Applied data storytelling techniques to communicate insights to non-technical stakeholders

Data Analytics Job Simulation | Deloitte Australia (Forage)

- Completed a Deloitte job simulation involving data analysis and forensic technology
- Created a data dashboard using Tableau
- Used Excel to classify data and draw business conclusions

Data Science Job Simulation | British Airways (Forage)

- Analyzed customer review data using Python to identify sentiment patterns and key drivers of customer satisfaction
- Built a predictive model to forecast customer buying behavior

CERTIFICATIONS

- CertNexus Certified Data Analytics Professional — March 2026
- IT Specialist — Data Analytics
- Python for Data Science, AI & Development — IBM
- Data Science Methodology — IBM
- Databases & SQL — IBM

VIRTUAL EXPERIENCE

- Tata GenAI Powered Data Analytics Job Simulation — Forage
- Deloitte Australia Data Analytics Job Simulation — Forage
- British Airways Data Science Job Simulation — Forage

EDUCATION

B.E — Artificial Intelligence & Data Science

2024 — 2028

Srinivas Institute of Technology, Mangaluru

3rd Year | VTU | Expected Graduation: 2028

PUC — PCMS

2022 — 2024

SDPT PU College, Mandarthi
