

AKHILESH

Data Scientist | Data Analyst

✉ akhileshmogaver@gmail.com | ☎ 9036564406 | [LinkedIn](#) | [GitHub](#) | Mangaluru, Karnataka, India

PROFESSIONAL SUMMARY

Data scientist and analyst with hands-on experience in Python, SQL, Power BI, and machine learning. Skilled in end-to-end data workflows—from data engineering and exploratory analysis to predictive modeling and interactive dashboards. Completed multiple production-ready projects including HR attrition analysis with ML pipeline, streaming analytics dashboards, and recommendation systems. CertNexus Certified Data Analytics Professional. Seeking Data Scientist and Data Analyst roles to leverage analytical and ML skills on impactful business problems.

TECHNICAL SKILLS

Languages	Python, SQL, HTML, CSS
Databases	MySQL, IBM Db2
Analytics	Pandas, NumPy, Matplotlib, Seaborn
Visualization	Power BI, DAX, Matplotlib, Seaborn, Tableau
Machine Learning	Scikit-learn, Supervised Learning, Unsupervised Learning, Classification, Regression, Clustering, Feature Engineering, Model Evaluation, Hyperparameter Tuning, Cross Validation
Tools	MySQL Workbench, Jupyter Notebook, VS Code, Excel, Git, GitHub, Streamlit, Pycharm
Concepts	EDA, Data Cleaning, Data Normalization, Star Schema, Window Functions, CTEs

PORTFOLIO PROJECTS

IBM HR Attrition Analysis & ML Pipeline | MySQL + Power BI + Python ML

2026

- Normalized a 1,470-row flat CSV into 5 relational tables with foreign key constraints using star schema design
- Wrote 7 SQL files covering data exploration, department analysis, salary analysis, tenure analysis, overtime analysis, and CTE-based cohort analysis
- Used advanced SQL — multi-table JOINS, RANK() window function, CASE WHEN aggregations, and CTEs
- Built a 2-page interactive Power BI dashboard with 8 visuals, 4 KPI cards, color-coded severity bars, synced slicers, and navigation buttons
- Extended with ML pipeline: baseline model, tree-based classification(Random Forest, Gradient Boosting), SMOTE for class imbalance handling, hyperparameter tuning, and model evaluation(ROC-AUC, Precision, Recall)
- Key finding: Sales Representatives have 39.76% attrition and earn \$2,046/month less than employees who stayed
- Added Key Insights and Recommendations sections — identified high-risk employee profiles using CTE + 5-table JOIN analysis

Netflix Content Analysis — EDA | Python | Pandas | Matplotlib | Seaborn

2025

- Performed end-to-end exploratory data analysis on 8,800+ Netflix titles
- Handled missing data, corrected data entry errors, and normalized misrouted columns

- Built 12 portfolio-ready visualizations using Netflix brand colors including a month-vs-year content heatmap and Movies vs TV Shows trend analysis
- Identified content growth patterns, genre distribution, and country-wise production trends

CSV Analytics Dashboard — EDA | Python | Pandas | Matplotlib | Streamlit 2026

- End-to-end Streamlit app with CSV file upload, dynamic EDA, statistical analysis, and visualizations
- Full GitHub repository with README and Streamlit Community Cloud deployment

Movie Recommendation System — Python | TMDB API | Streamlit 2026

- Content-based recommendation engine using pickle-loaded similarity matrices and TMDB API integration
- Streamlit web app with real-time poster display and dynamic recommendations

VIRTUAL INTERNSHIPS

Data Analytics Job Simulation | Tata Group (Forage)

- Completed GenAI-powered data analytics simulation — analyzed business data and created client-ready presentations
- Applied data storytelling techniques to communicate insights to non-technical stakeholders

Data Analytics Job Simulation | Deloitte Australia (Forage)

- Completed a Deloitte job simulation involving data analysis and forensic technology
- Created a data dashboard using Tableau
- Used Excel to classify data and draw business conclusions

Data Science Job Simulation | British Airways (Forage)

- Analyzed customer review data using Python to identify sentiment patterns and key drivers of customer satisfaction
- Built a predictive model to forecast customer buying behavior

CERTIFICATIONS

- CertNexus Certified Data Analytics Professional — March 2026
- IT Specialist — Data Analytics
- Python for Data Science, AI & Development — IBM
- Data Science Methodology — IBM
- Tata GenAI Powered Data Analytics Job Simulation — Forage
- Deloitte Australia Data Analytics Job Simulation — Forage
- British Airways Data Science Job Simulation — Forage

EDUCATION

Bachelor of Engineering — Artificial Intelligence & Data Science 2024 — 2028

Srinivas Institute of Technology, Mangaluru
3rd Year | VTU | Expected Graduation: 2028

PUC — PCMS 2022 — 2024

SDPT PU College, Mandarthi

Portfolio projects available on GitHub | Open to Data Analyst & Data Science roles
